

# Advanced Facelift Massage offered by a therapist in Chippenham

Wiltshire Reflexologist Gabriela Slater is now one of only a handful of practitioners in the county offering an innovative treatment – Advanced Facelift Massage. Gabriela, aged 41, who lives in Chippenham, has trained with one of the UK’s leading authorities on this method – Ziggie Bergman at the London School of Reflexology.

“This treatment can help anyone who feels concerned that their face no longer reflects their personality and they want to minimise the effects of wrinkles, dark circles under the eyes, sagging jowls or frown line. The treatment is perfect for someone who might want to look refreshed and youthful prior to a family event such as a wedding, birthday or other celebration” said Gabriela Slater.

The Advanced Facelift Massage treatment is always tailored to individual needs. The deep work on facial tissue increases blood flow, nerve supply is stimulated

which results in skin that looks more contoured, fresher and tighter. It also encourages lymphatic drainage, helps to detoxify and stimulates the production of collagen and elastin.

The treatment can slow down the aging process and achieve younger-looking and healthier skin.

Organic Rose and Frankincense Oils are used by Gabriela during the Facelift Massage to nourish and rejuvenate the skin.

One of Gabriela’s recent clients had a course of 5 treatments to reduce the effect of wrinkles around her eyes, forehead and also reduce the appearance of a frown line.

“It was a great experience and just after my first session my skin felt tighter and ‘glowing’. The next few sessions made my skin really smooth and soft, I noticed that my wrinkles and frown line were significantly reduced. I was so impressed with how my skin had improved over the course of treatments. I would highly recommend it as it really worked for me.”

Gabriela said: “This is a gentle, non-invasive way to lift the skin naturally and stimulate collagen production. It sculpts the face,

neck and jawline resulting in a youthful and radiant complexion, even after the first treatment. However for longer lasting results a course of treatment is recommended.”

**If you would like to book an Advanced Facelift Massage – Gabriela offers to Town Crier Readers 1 hour sessions for £39.99 instead of £45 in January 2016, please bring this article with you to get your discount.
